About Me:

I am a game developer who utilizes Unity 3D Game Engine and constantly strives to enhance my knowledge in the field. I am a self-taught individual, dedicated to studying and learning independently to improve my development and programming skills. In the moment I am learning to develop multiplayer games usign Photon Pun and Mirror Networking. In the future I intend starting learn VR and AR development for games in unity. Recently I have been learning front-end to build my own portfolio.
