Goal:

- Unity Developer / Aspiring Full-Stack Developer

Portfolio:

- **Portfolio:** https://jorgeniuus.github.io/JorgeMauadieUnityDeveloperPortfolio/

Education:

- High School Diploma: Completed in 2011 at Colégio Estadual Rubens Farrulla.

Professional Experience:

- Worked as a Unity developer on the **Evangelikids app** by Fonoaloud (2023-2024).
  - Fixing bugs and improving app stability.
  - Designing and implementing visual user interfaces.
  - Integrating social login functionality.
  - Implementing Unity's In-App Purchase system.
- Gained experience developing computer and mobile games using the **Unity 3D Game Engine** and **C# programming language** since January 2022.

Qualifications:

- Excelente reading and writing skills.
- Unity game development expertise.
- Proficiency in NodeJS.
- Proficiency ReactJS.

About Me:

I am a game developer specializing in the Unity 3D Game Engine, continuously striving to expand my expertise in the field. As a self-taught professional, I am dedicated to independent learning to refine my development and programming skills. Currently, I am exploring multiplayer game development using **Photon PUN** and **Mirror Networking**. Additionally, I am expanding my expertise into full-stack development by learning **Node.js** and **React.js**.
